

# USView™ **Web-Enabled GIS for Utilities**

Distribution of your GIS Data has never been easier!

## Completely User Configurable!

USView™ is a powerful tool to publish and distribute *your GIS data* company-wide. **Completely user-configurable**, in just minutes you'll be using USView™ to **browse, pan and query your GIS** from any computer on your network. With **'point-and-click'** functionality enabling **dynamic SQL search** capabilities, GIS intelligence is no longer restricted to those with specific knowledge and training. Additionally, the USView™ **MultiSpeak® DEF** allows additional access to **AMR, Load Control, Outage, SCADA and Engineering** systems and data.

## Simple, Low-Impact Implementation

USView™ can be up and running **in 1-2 days company-wide and mobile** in most GIS implementations having standardized links in AutoCad. Using USView™ to **publish** your documents and plots digitally instead of plotting **reduces expenses and time** with **minimal impact** on existing workflows (*don't worry – you can still plot!*)

## Just Ask Our Users!

*“USView™ accomplishes what no other software has managed to do in the past - it places the power of your GIS at everyone's disposal. No longer do you have to be an experienced AutoCAD technician to view maps and query data - anyone who has ever used an Internet browser will be able to use this tool. You are limited only by your imagination and the data you make available. A must for any company that wants to make its GIS data available to the entire enterprise.”*

Sue Ferrell, GIS Manager/System Analyst - Littleton Electric Light Department, Littleton, MA

*“The best tool for viewing our distribution system I have ever had. USView™ has saved me countless hours tracking down locations for new service requests. It's a great tool that everyone uses.”*

Dale Daniels, New Accounts Representative - Powder River Energy Corporation, Sundance, WY

*“USView™ allowed us to go to a paperless GIS system. Our entire staff has constant access to up-to-date information. USView™ is affordable, extremely easy to use, and it works great with our [existing] mapping system.”*

Donna Hebein, GIS Coordinator - Delta Montrose Electrical Association, Delta, CO

## Free Demo and Test Drive!

To arrange a no-cost web-based demo, and/or receive a free trial version of the product to try-before-you-buy, call **970.224.9316** today, or visit us online at: [www.utilitysciences.com](http://www.utilitysciences.com)
